

Hidrel micro

Hidrel
Warranty of accessibility
and security when
transporting travellers.

Simple and easy to use, this new semi-automatic lift (two parts platform with manual handrails) has been created, in different types, to be fitted in both Microbuses and Midibuses as in Coaches and Buses.

The Micro lift can be fitted in the steps of the front entrance to the bus as it can skip a step depth of 370 mm and it raises a seat floor to ground distance of up to 1800 mm.

Also can be fitted in the side, rear or over the wheels baggage compartment.

TECHNICAL CHARACTERISTICS:

- Lifting capacity 300 kg.
- Lift weight between 225 and 290 kg depending on the types.
- Aluminium non-slippery platform of 1450 mm. depth x 800 mm width.
- Stroke up to 1800 mm.
- It skips steps up to 370 mm.
- 12 or 24 V. electro-hydraulic group operation.
- Operation by means of a two button control.
- Quick and easy emergency manual operation.

Lift type

micro C 135

Box dimensions: 1350x1034x160
 Maximum up stroke: 770 mm
 Maximum down stroke: 770 mm
 Weight: 225 kgs
 It skips steps up to 330 mm

micro L 160

Box dimensions: 1600x1034x160
 Maximum up stroke: 900 mm
 Maximum down stroke: 700 mm
 Weight: 255 kgs.
 It skips steps up to 370 mm (A)

micro PRACTIC ST

Box dimensions: 1900x1010x180
 Maximum up stroke: 1000 mm
 Maximum down stroke: 520 mm
 Weight: 265 kgs.
 It skips steps up to 330 mm (A)

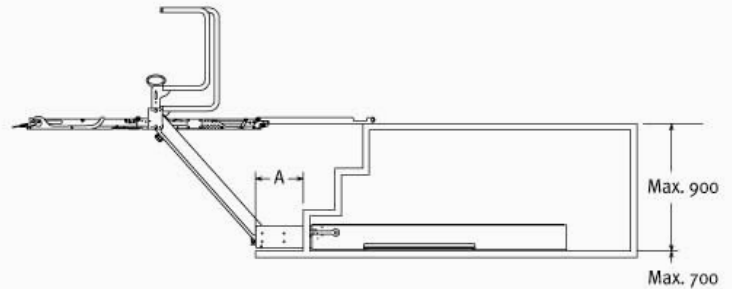

micro PRACTIC BPC

Box dimensions: 1940x1010x180
 Maximum up stroke: 550 mm
 Maximum down stroke: 1000 mm
 Weight: 265 kgs

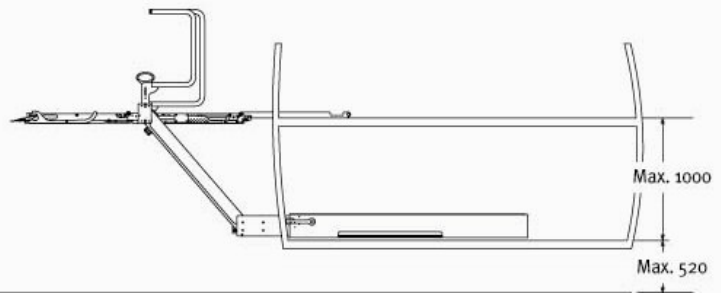

micro PRACTIC BPL

Box dimensions: 2250x1020x220
 Maximum up stroke: 570 mm
 Maximum down stroke: 1300 mm
 Weight: 290 kgs
